

Equipment maintenance for independent teams

Seed investor presentation

September 2026

North Fern is a fictional company. All figures are fictional.

A shared maintenance record

North Fern

Customer problem

Service teams lose time reconstructing equipment history from scattered spreadsheets.

Product

North Fern combines service logs and maintenance schedules in one subscription product.

Illustrative annual price

\$12,000 per team.

Seed financing plan

North Fern

Illustrative capital request

\$2 million. Fund twelve months of product development and a small paid pilot with service firms managing 50 to 500 assets.

Founding team

Field operations and software engineering.
