NASS Southern Plains Region announces 2024 Supervisor of the Year

AUSTIN, TEXAS – November 21, 2024 – USDA's National Agricultural Statistics Service (NASS) Southern Plains Region named [Sharon Vaughn](#) the Supervisor of the Year for 2024. Vaughn received the award because of her exceptional dedication to the NASS mission of providing timely, accurate and useful statistics in service to U.S. agriculture.

"Without a doubt, Sharon Vaughn more than deserves the **2024 Supervisor of the Year** for the Southern Plains Region," said Wilbert Hundl, Jr., regional director of the NASS Southern Plains Regional Field Office. "In all projects, from the complex to the urgent, Sharon Vaughn continually demonstrates excellence in teamwork, data collection, and strengthening respondent relations."

Vaughn began her career in agriculture 32 years ago as an enumerator in Oklahoma. Her success is driven by her commitment to excellence in managing NASDA Enumerators and mentoring fellow NASDA/NASS supervisors. Vaughn started with the National Association of State Departments of Agriculture (NASDA) as a NASS enumerator and worked to become a supervisor, partnering with agricultural producers to provide quality statistical data.

Vaughn leads a team of five who assist agricultural producers in Northeast and East Central Oklahoma with agricultural surveys conducted by NASS. She credits the producers she has contacted over the years with teaching her about agriculture.

An enumerator is a person trained to conduct interviews or make field counts and record the information gathered. NASDA and NASS partner to hire enumerators under a cooperative agreement to serve the United States, its agricultural producers, and rural communities.

Under the cooperative agreement, NASDA employs over 2,000 part-time enumerators who collect statistical data for NASS agricultural surveys. The cooperative agreement began in 1972. NASDA and NASS have operated this cooperative program continuously in all 50 states since 1978.

For more information on NASS surveys and reports, visit www.nass.usda.gov or call the NASS Southern Plains Regional Field Office at 1-800-626-3142.
