Form 940-V, Payment Voucher

Purpose of Form

Complete Form 940-V if you're paying your balance due on Form 940 by check or money order. We will use the completed voucher to credit your payment more promptly and accurately, and to improve our service to you.

Making Payments With Form 940

To avoid a penalty, make your payment with your 2025 Form 940 **only** if your FUTA tax for the fourth quarter (plus any undeposited amounts from earlier quarters) is \$500 or less. If your total FUTA tax after adjustments (Form 940, line 12) is more than \$500, you must make deposits by electronic funds transfer (EFT). An EFT can be made using the Electronic Federal Tax Payment System (EFTPS), IRS Direct Pay, or your IRS business tax account. Don't use Form 940-V to make federal tax deposits. You can also pay your balance due by EFT instead of sending Form 940-V. If you pay your balance due by EFT, file your return using the *Without a payment* address under *Where Do You File?* in the Instructions for Form 940; don't file Form 940-V. For more information about EFTPS or to enroll in EFTPS, go to www.eftps.gov. For more information about IRS Direct Pay, go to www.irs.gov/DirectPay. For more information about making an EFT through your IRS business tax account, go to www.irs.gov/BusinessAccount. See *When Must You Deposit Your FUTA Tax?* in the Instructions for Form 940. Also see sections 11 and 14 of Pub. 15 for more information about deposits.

Use Form 940-V if you're paying your balance due on Form 940 by check or money order. However, if you pay an amount with Form 940 that should've been deposited, you may be subject to a penalty. See Deposit Penalties in section 11 of Pub. 15.

FEDERAL RESERVE press release

For release at 2:00 p.m. EDT

July 30, 2025

Although swings in net exports continue to affect the data, recent indicators suggest that growth of economic activity moderated in the first half of the year. The unemployment rate remains low, and labor market conditions remain solid. Inflation remains somewhat elevated.

The Committee seeks to achieve maximum employment and inflation at the rate of 2 percent over the longer run. Uncertainty about the economic outlook remains elevated. The Committee is attentive to the risks to both sides of its dual mandate.

In support of its goals, the Committee decided to maintain the target range for the federal funds rate at 4-1/4 to 4-1/2 percent. In considering the extent and timing of additional adjustments to the target range for the federal funds rate, the Committee will carefully assess incoming data, the evolving outlook, and the balance of risks. The Committee will continue reducing its holdings of Treasury securities and agency debt and agency mortgage-backed securities. The Committee is strongly committed to supporting maximum employment and returning inflation to its 2 percent objective.

In assessing the appropriate stance of monetary policy, the Committee will continue to monitor the implications of incoming information for the economic outlook. The Committee would be prepared to adjust the stance of monetary policy as appropriate if risks emerge that could impede the attainment of the Committee's goals. The Committee's assessments will take into account a wide range of information, including readings on labor market conditions, inflation pressures and inflation expectations, and financial and international developments.

(more)

Voting for the monetary policy action were Jerome H. Powell, Chair; John C. Williams, Vice Chair; Michael S. Barr; Susan M. Collins; Lisa D. Cook; Austan D. Goolsbee; Philip N. Jefferson; Alberto G. Musalem; and Jeffrey R. Schmid. Voting against this action were Michelle W. Bowman and Christopher J. Waller, who preferred to lower the target range for the federal funds rate by 1/4 percentage point at this meeting. Absent and not voting was Adriana D. Kugler.

Decisions Regarding Monetary Policy Implementation

The Federal Reserve has made the following decisions to implement the monetary policy stance announced by the Federal Open Market Committee in its [statement](#) on July 30, 2025:

- The Board of Governors of the Federal Reserve System voted unanimously to maintain the interest rate paid on reserve balances at 4.4 percent, effective July 31, 2025.
- As part of its policy decision, the Federal Open Market Committee voted to direct the Open Market Desk at the Federal Reserve Bank of New York, until instructed otherwise, to execute transactions in the System Open Market Account in accordance with the following domestic policy directive:

"Effective July 31, 2025, the Federal Open Market Committee directs the Desk to:

- Undertake open market operations as necessary to maintain the federal funds rate in a target range of 4-1/4 to 4-1/2 percent.
 - Conduct standing overnight repurchase agreement operations with a minimum bid rate of 4.5 percent and with an aggregate operation limit of \$500 billion.
 - Conduct standing overnight reverse repurchase agreement operations at an offering rate of 4.25 percent and with a per-counterparty limit of \$160 billion per day.
 - Roll over at auction the amount of principal payments from the Federal Reserve's holdings of Treasury securities maturing in each calendar month that exceeds a cap of \$5 billion per month. Redeem Treasury coupon securities up to this monthly cap and Treasury bills to the extent that coupon principal payments are less than the monthly cap.
 - Reinvest the amount of principal payments from the Federal Reserve's holdings of agency debt and agency mortgage-backed securities (MBS) received in each calendar month that exceeds a cap of \$35 billion per month into Treasury securities to roughly match the maturity composition of Treasury securities outstanding.
 - Allow modest deviations from stated amounts for reinvestments, if needed for operational reasons."
- In a related action, the Board of Governors of the Federal Reserve System voted unanimously to approve the establishment of the primary credit rate at the existing level of 4.5 percent.

(more)

This information will be updated as appropriate to reflect decisions of the Federal Open Market Committee or the Board of Governors regarding details of the Federal Reserve's operational tools and approach used to implement monetary policy.

More information regarding open market operations and reinvestments may be found on the Federal Reserve Bank of New York's [website](#).

Tips for Preventing *Listeria* Food Poisoning

Germs, like *Listeria*, can be spread through food. *Listeria* strikes hard at pregnant women and their newborns, older adults, and people with weakened immune systems.

If you, or someone you make food for, are pregnant, 65 or older, or have a weakened immune system:

- Reheat hot dogs and deli meats to steaming hot or 165° F just before serving.
- Select canned or shelf-stable pâté and meat spreads that do not need refrigeration before opening. Refrigerate after opening.
- Do not eat refrigerated smoked seafood unless it is in a cooked dish, such as a casserole, or is canned or shelf stable.
 - Refrigerated smoked seafood is most often labeled as nova-style, lox, kippered, smoked, or jerky.
 - Canned and shelf stable tuna, salmon, and other fish products are safe to eat.
- Do not drink raw (unpasteurized) milk and do not eat foods that contain unpasteurized milk.
- Do not eat soft cheese, such as queso fresco, feta, Brie, Camembert, and blue-veined cheeses, unless the label says, "made with pasteurized milk."

Most people with *Listeria* infections require hospital care and about one in five die.

Food Safety Tips in the Kitchen

- Clean refrigerator spills right away, especially juices from hot dog and lunch meat packages, raw meat, and uncooked poultry.
- Clean the refrigerator's inside walls and shelves with hot water and liquid soap, then rinse.
- Store leftovers in shallow containers then cover with airtight lids, plastic wraps, or aluminum foil. Use leftovers within three to four days.
- Use precooked or ready-to-eat food as soon as possible. Do not store the product in the refrigerator past the use-by date; follow USDA refrigerator storage time guidelines:
 - Hot dogs: store opened package one week or less and unopened package, two weeks or less.
 - Lunch and deli meat: store factory-sealed, unopened package two weeks or less. Store opened packages and meat sliced at a local deli no longer than 3 to 5 days.

DID YOU KNOW?

Listeria can grow in your refrigerator unless it is set at 40°F or lower and the freezer is at 0°F or lower.

Clean. Separate. Cook. Chill.

CLEAN

- Wash hands often with soap and warm water, especially after touching hot dogs, raw meat, chicken, turkey, seafood, or their juices.
- Use clean dishes, spoons, knives, and forks.
- Wash counter tops with hot soapy water and clean spills right away.
- Wash cutting boards with hot, soapy water after each use.
 - To sanitize, cover the cutting board's surface with one tablespoon of unscented, liquid chlorine bleach per gallon of water then allow it to stand for several minutes.
 - Rinse with clear water and air or pat dry with clean paper towels.

- Do not cross-contaminate.
- Keep raw meat, fish, and poultry away from other food that will not be cooked.
- Use one cutting board for fresh produce and bread and a separate one for raw meat, poultry, and seafood.
- Never place cooked food on a plate that previously held raw meat, poultry, seafood, or eggs without first washing the plate with hot soapy water.

SEPARATE

COOK

- Use a food thermometer to cook food to a safe minimum internal temperature:
 - Ground beef or pork to 160°F,
 - Poultry to 165°F, and
 - Seafood to 145°F.
- Cook shrimp, lobster, and crab until they turn red and the flesh is pearly opaque.
- Cook clams, mussels, and oysters until the shells open.
- Cook eggs until the yolks and whites are firm. Use only recipes in which the eggs are cooked or heated to 160°F.

- Refrigerate or freeze within two hours.
- Refrigerate or freeze within one hour in hot weather (90°F or more).
- Do not leave meat, fish, poultry, or cooked food unrefrigerated.
